Adding Text to Dashboards in datAdore Insights (Superset)

This guide explains how to add or edit descriptions and insights within a dashboard.

15 Steps View most recent version

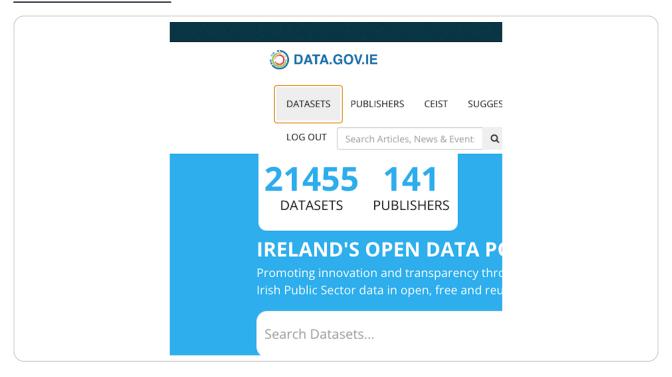

Created by Creation Date Last Updated

Derilinx Team Sep 24, 2025 Sep 24, 2025

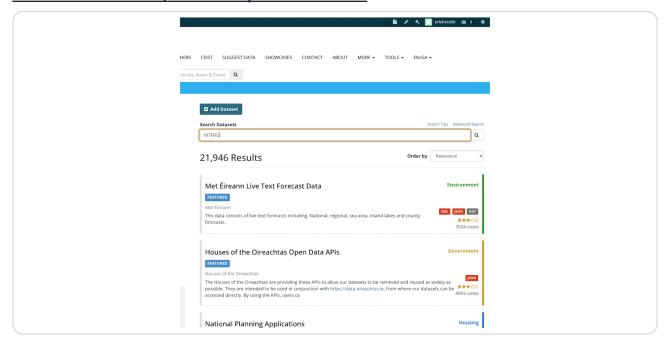

Click on DATASETS

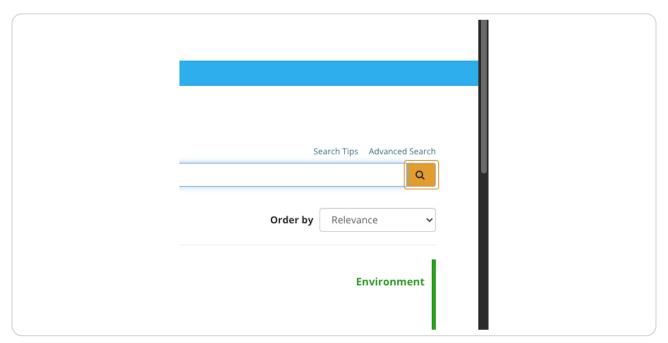

STEP 2

In the datasets page, to search a specific dataset, type in your dataset name in the search field, for example - "mtm02"

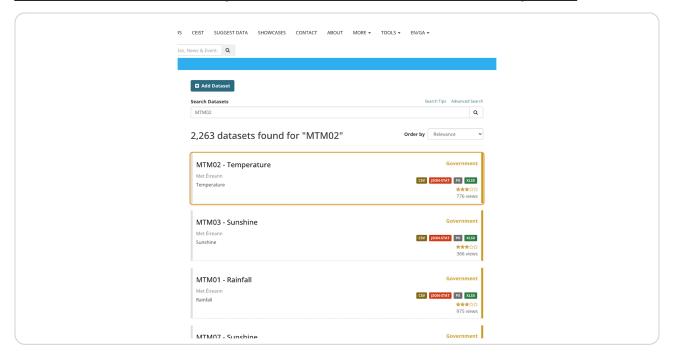

STEP 3 Click on search icon button

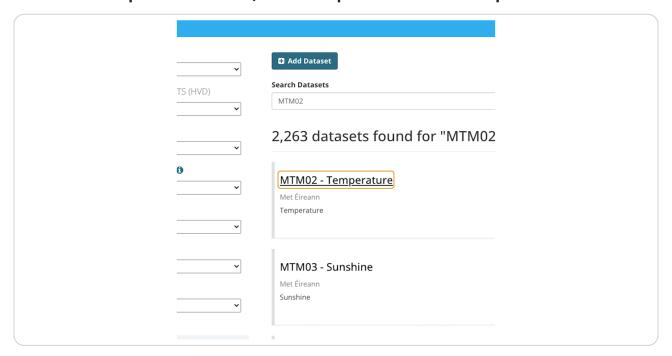

STEP 4

A list of datasets shows up that matches with the entered keyword.

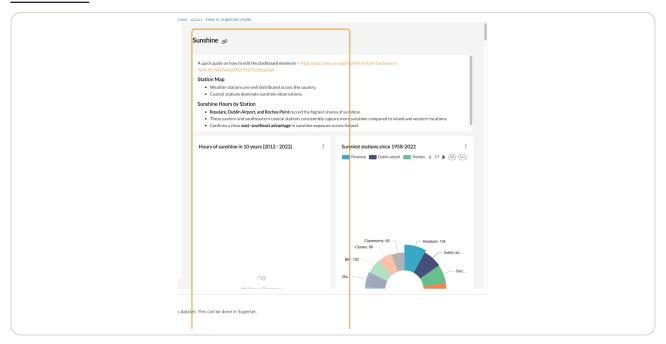

STEP 5

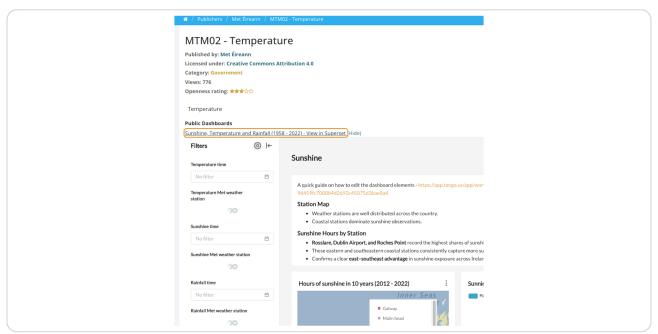

Click on the specific dataset, for example - MTM02 - Temperature

The dashboard linked to the dataset should show up at the start of the page as below.

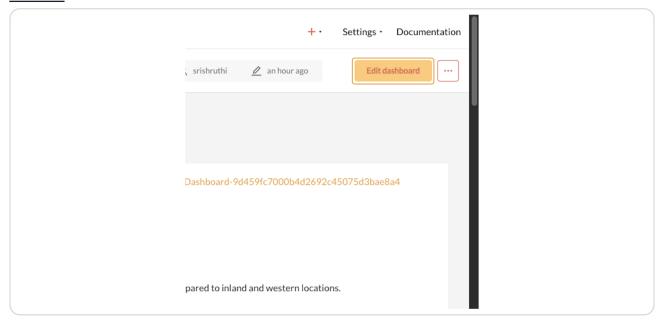

STEP 7 Click on Sunshine, Temperature and Rainfall (1958 - 2022) - View in Superset

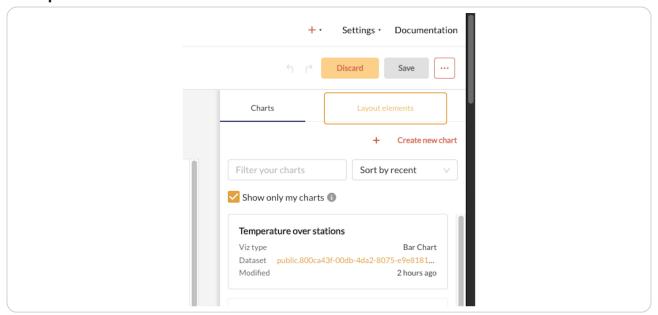

STEP 8

To edit the description or any insights in the dashboard, click on Edit dashboard.

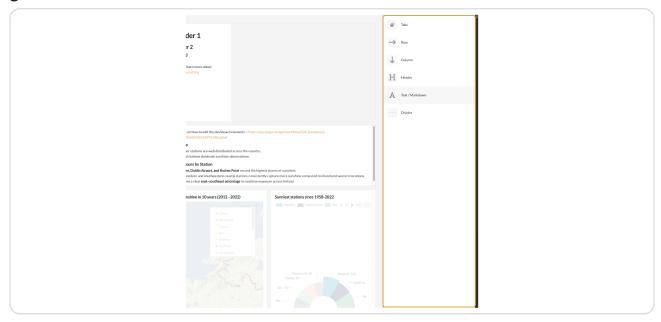

STEP 9

Click on "Layout elements" to see the list of items that can be added to the dashboard such as divider, text, header and so on. The list shows up in the next picture.

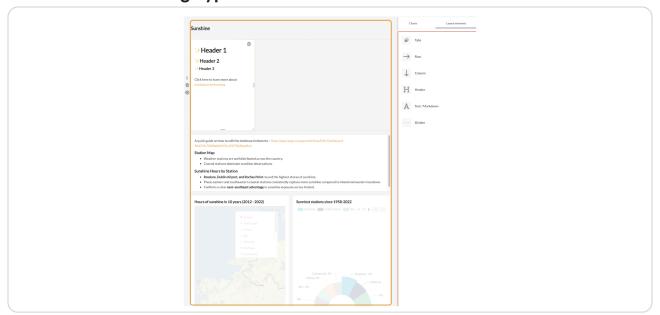

Drag a specific element - for example, text/markdown and drop it in the golden line.

STEP 11

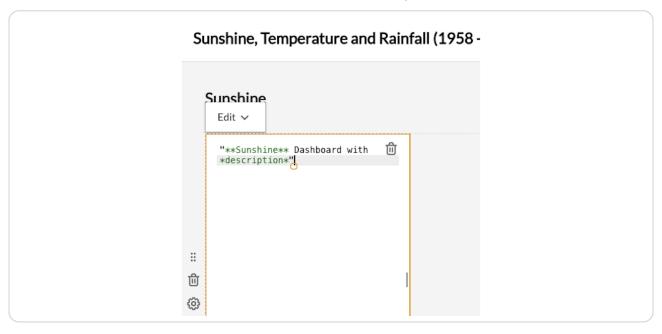

The dropped in text/markdown element looks as below. For quick understanding of how to write in markdown formatting, click on the markdown formatting hyperlink.

For example, type "**Sunshine** Dashboard with *description*"

- Use single asteriks at the start and end of the word/phrases for Bold
- Use double asteriks at the start and end of the word/phrases for Italic

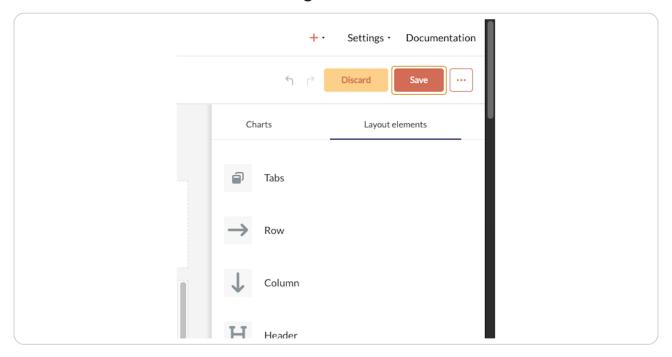

STEP 13 Drag text/markdown box in the dashboard to resize the element as required.

STEP 14

And click on Save to save the changes.

STEP 15

The final dashboard with the text would like the below.
